PROGRAM

	1st Day – Monday 14th September
08:00 - 9:00	Introduction and welcome – Epidemiology and the main predisposing factors - Angelo Scuderi (Brazil)
09:00 – 10:00	Basics of Anatomy, Physiology and venous hemodynamics (1st part) - Claudio Allegra (Italy).
10:00 – 10:30	Coffee or tea
10:30 – 11:30	Basics of Anatomy, Physiology and venous hemodynamics (2nd part and conclusion) - Claudio Allegra (Italy).
11:30 - 12:30	Diagnosis of vascular pathology. Claudio Allegra (Italy)
12:30 – 14:00	Lunch
14:00 - 17:00	Practical Classes: Division in groups: hands on Clinical Examination, Functional tests and Ultrasonography. Selection of Patients for Surgery or Sclerotherapy or Laser.

2nd Day – Tuesday – 15th September

- 00:80	Examination of the patient with Venous Pathology. The CEAP and VSS classification,
09:00	clinical exams and imaging: ultrasound, CT and MRI and phlebography. Pier Luigi
	Antignani (Italy)

09:00 - Venous Pathology. The Chronic Venous Insufficiency, Valve Insufficiency, obstructions and reflux. Quantification of venous hemodynamic phenomena.(1st

10:00	part) -Pier Luigi Antignani (Italy)
10:00 – 10:30	Coffee or tea
10:30 – 11:30	Venous Pathology. The Chronic Venous Insufficiency, Valve Insufficiency, obstructions and reflux.Quantification of venous hemodynamic phenomena.(2nd part and conclusion)- Pier Luigi Antignani (Italy)
11:30 - 12:30	Venous Thrombosis: Superficial and Deep - clinical aspects, imaging and treatment. Prophylaxis of thromboembolic event.Thrombophilia and other conditions predisposing to TEB. Pier Luigi Antignani (Italy).
12:30 – 14:00	Lunch
14:00 – 17:00	 Practical Classes. Divided in group : Clinical examination Procedures (sclerotherapy and surgery)

	3rd Day – Wednesday – 16thSeptember
08:00- 09:00	The use of the old and the new anticoagulants. Claudio Allegra (Italy)
09:00- 10:00	The basics of the most accepted modalities treatment: Surgery, Sclerotherapy, laser, radio frequency and other (part 1). Mario Sica (France)
10:00 - 10:30	Coffee or tea
10:30 – 11:30	The basics of the most accepted modalities treatment: Surgery, Sclerotherapy, laser, radio frequency and other (part 2) // Sclerotherapy. Principles, techniques, indications and side effects. Mario Sica (France).
11:30 – 12:30	Medical Therapy of Venous Disease. Pharmacology. Claudio Allegra (Italy)
12:30 – 14:00	Lunch
14:00 -	Workshop – Sclerotherapy – Hands On (models) Revision of the procedures made

4th Day - Thursday 17th September. 08:00 - The elastic compression. Techniques and indications. Angelo Scuderi (Brazil) 09:00 - Laser in Venous Disorders (Telangiectasia and reticular veins) 10:00 - Coffee or tea 10:30 - Leg Venous Ulcers. Principles and UIP Consensus. Angelo Scuderi (Brazil) 12:00 - Lunch 14:00 - Free for Local Organizing program 18:00 Free for Local Organizing program 18:00 The compressive Venous Syndrome - Pelvic Venous Pathology - Approach Protocol. 08:00 - Javier Leal Monedero (Spain) (Video) 09:30 - Coffee or tea 00:00 - Sinkin (Argentina) 11:00 - Sinkin (Argentina) 11:00 - Varicose veins and their main complications: major treatments, indications, techniques, iatrogenic, causes of poor results, etc. Angelo Scuderi (Brazil) 12:00 - Lunch 14:00 - Lunch	18:00	day before
08:00 09:00The elastic compression. Techniques and indications.
